The SURGEON-GENERAL.

MEXICO.

Sanitary conditions at Ensenada.

Acting Assistant Surgeon Alexander reports, March 31, as follows: The sanitary condition at Ensenada remains good, with no severe acute disease prevalent. No travel from lower coast as yet, but steamer *Curaçao* leaves San Francisco on April 9 for Ensenada and Gulf ports, returning here on the 25th.

The SURGEON-GENERAL.

Sanitary conditions at Guaymas.

Passed Assistant Surgeon Grubbs reports, March 30, as follows: The sanitary condition of this port remains good. In spite of the favorable reports from Mazatlan, I hear no talk of resuming shipping with that place. A certain amount of freight from Mazatlan and vicinity is going overland to Altata and thence by water here. I am told by the quarantine authorities that such freight is accompanied by certificates of disinfection, and in any case the nature of the articles shipped and time elapsed makes any danger there might be small.

Report from Mazatlan. No new plague cases during week ended April 3.

Consul Kaiser reports, April 3, as follows: No changes. Will discontinue wiring unless we have new cases.

The SECRETARY OF THE TREASURY.
